

The EasyCopy Company, 22 years' experience ...
in producing and delivering systems for managing graphics workflow across platforms.

More than 100 Oil & Gas companies and 150.000 EasyCopy Geoscience users, choose EasyCopy as their wall to wall application for the important functions that are outside the scope of their primary applications, such as Schlumberger, Landmark and SMT.

The EasyCopy Graphics Suite helps them solve their challenges with:

- Seismic CGM, EMF and SVG support
- Conversion; ex. EMF to CGM or CGM to PDF
- Printing/Plotting without limitations
- Advanced log handling, incl. stitch PDF, Crop and Splice and output to special log printers – OYO, iSys, Printrex and Neuralog
- Professional Annotation, Mark up and Editing
- Specialized Geo-tools
- Enhanced Montage, layout and export to PowerPoint
- Animated sequences for 3D visualization
- Training video's

... and much more

EasyCopy is a cost efficient application fulfilling your requirements outside your primary application.

For professionals working with graphics from geo-applications The EasyCopy Graphics Suite is the best solution. With every version of EasyCopy we add more specialized functionality to make your advanced routines easy. At EasyCopy we focus on ergonomics and usability, and our customers value the ease of use in a wall to wall graphics efficiency tool.

Download and test EasyCopy and you can enjoy the benefits in EasyCopy 8.6 too

– ***We work hard, to make your life Easy!***
